QUICK INSTALL GUIDE

SILVER STORE **2-DRIVE** NAS

EXTERNAL REMOVABLE DUAL NETWORK HARD DRIVE / 3.5" / GIGABIT LAN / USB 3.0 HOST

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

Dear user,

This quick install guide provides you with the basic setup instructions of your SilverStore 2-Drive NAS.

For more detailed information see the user manual (PDF file) on the CD.

Your device is preconfigured as RAID 0 (maximum capacity). For maximum data security, we recommend configuring the device as RAID 1 (see user manual page 40).

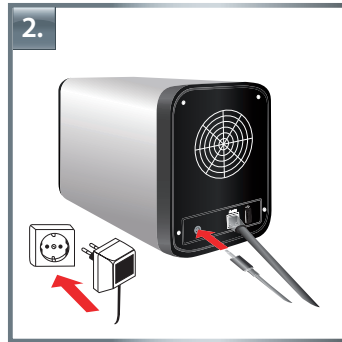

HARDWARE INSTALLATION (with HDD included)

1.

Plug the LAN cable into the Freecom SilverStore 2-Drive NAS.

2.

Connect the cable of the power supply to the drive and to the socket.

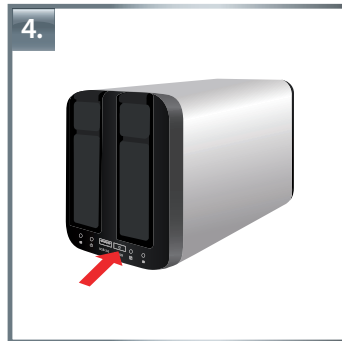

3.

Connect the other end of the LAN cable to a network router.

Please note: Your router must be configured as DHCP server. See the manual of your router for further information how to setup DHCP server function.

4.

Power on.

Please note: When using two new HDDs, you have to proceed with the chapter "User Recovery" first.

Need assistance? Have questions?

In case you have a question about the use of this product, need information about other Freecom products or need technical assistance, please contact the Freecom Service Center for your country. See www.freecom.com for details.

Freecom offers free unlimited helpdesk support.

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

SOFTWARE INSTALLATION

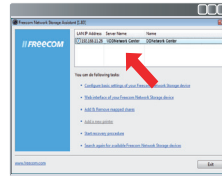

1.

Install Software:

- Insert Manual & Application CD.
- Double-click „Start PC.exe“/ “Start Mac“.
- Go to Software Installation.
- Install the Freecom Network Storage Assistant.

2.

FNS Assistant (FNSA)

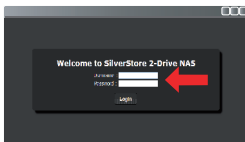

The Freecom Network Storage Assistant helps you to locate your Freecom SilverStore 2-Drive NAS in your network.

It can also be used to

- quickly open the SilverStore 2-Drive NAS configuration website.
- configure the basic settings.
- mount shared network folders.

- Start the FNS Assistant and select the device from the device list.
- Go to „Web interface of your Freecom Network Storage device“ for initial configuration.

3.

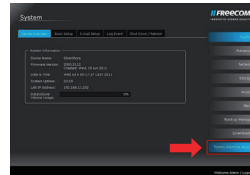

Admin login:

Use default administrator password to login to the configuration:

User: admin
Password: admin

Follow the Setup Wizard for initial device configuration.

4.

Access the SilverStore from the outside

Please see the Chapter “Access to the SilverStore from the outside”

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

HARDWARE INSTALLATION (for KIT or 2 new HDD)

Tray remove

3b

Lock the HDD on the other side with the flexible tray holder.

Tray insertion

4.

Insert tray with open tray handle into the slot! Push tray with thumb totally into the device!

5.

Close tray handle!

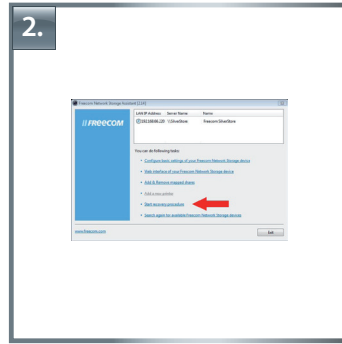

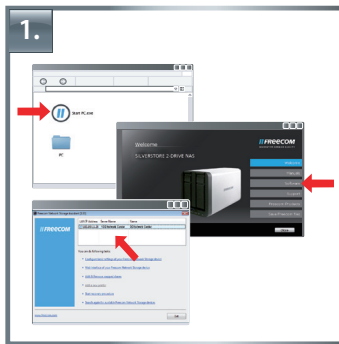

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

USER RECOVERY (required for KIT or 2 new HDD)

FNSA User Recovery

Install Software:

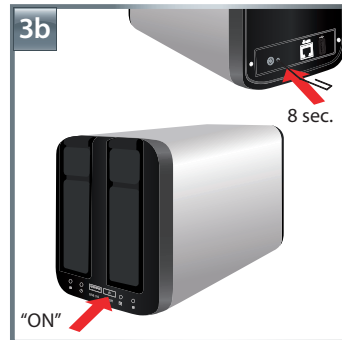

- Insert Manual & Application CD.
- Double-click „Start PC.exe“/ „Start Mac“.
- Go to Software Installation.
- Install the Freecom Network Storage Assistant.

Enable the Recovery mode by clicking 'Start the recovery procedure' in the Freecom Network Storage Assistant.

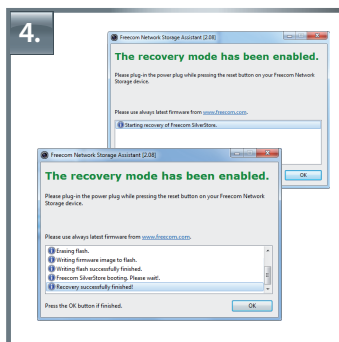

To continue with the FNSA User Recovery, please turn the SilverStore 2-Drive NAS off.

Use a pointed object to carefully press the 'Reset' button (e.g. paper clip). It is located next to the AC power slot on the back of the SilverStore 2-Drive NAS.

Keep the 'Reset' button pressed down and turn device on again. Wait until white LED goes off (ca. 8 seconds), then release the 'Reset' button.

Note:

Depending on the hard disk capacity, the recovery procedure might take up to 30 minutes.

Successful recovery

The User Recovery is finished when the message *Recovery successfully finished* is shown.

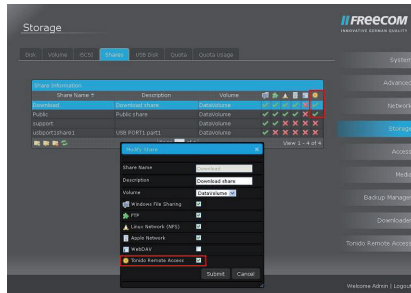

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

ACCESS TO THE SILVER STORE FROM THE OUTSIDE

1. Sharing folders for Tonido Remote Access

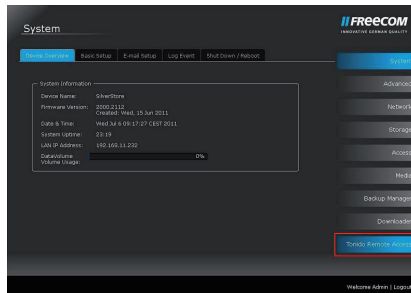

By default the SilverStore is sharing the Public folder for remote access when Tonido Private Cloud is enabled. You can add or remove shares in the interface.

Login to the SilverStore web interface and go to Storage - Shares. Select a folder and click on "Modify Share" and choose "Tonido Remote Access".

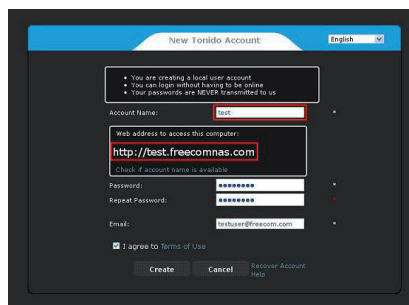

2. Tonido Remote Access Configuration

Login to the SilverStore web interface and click on the menu item "Tonido Remote Access".

3. Account Creation

Select an account name, enter password and mail address and accept the Terms of Use. Your device will be available from the outside under the web address <http://test.freecomnas.com> (where "test" stands for the name you selected).

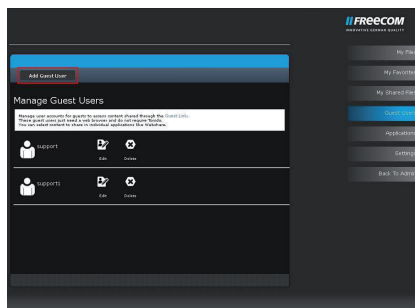

QUICK INSTALL GUIDE SILVER STORE 2-DRIVE NAS

To logon remotely via available apps for iOS, Android, PC etc. you can use the Account name (username) and password entered. To allow guest users access with their own username and password proceed with the next chapter "Adding Users".

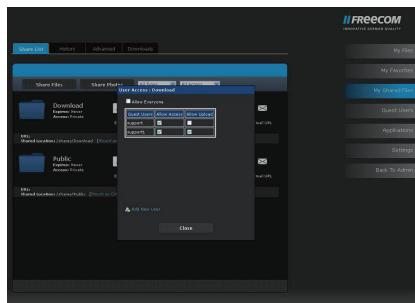

4. Adding users

In the Tonido GUI, go to "Guest Users". Click on "Add Guest User" to add users that are allowed to access your device.

User Permissions

Define user access limitations for every shared folder ("Allow Access" and/or "Allow Upload").

5. Accessing from the outside

To access the SilverStore you need to use the Account Name as [http://\[your-account-name\].freecomnas.com](http://[your-account-name].freecomnas.com)

Using your main account or allow guest users to logon with their own username and password will give access to your shared files.

You can login with any user name and password you defined for guest users. You can login from any PC and even with your iPhone, Android and Windows Mobile smartphones.
